## LIMITED REVIEW REPORT

January 20, 2014

To the Shareholders of Savola Group Company:  
(A Saudi Joint Stock Company)

### Scope of review

We have reviewed the accompanying interim consolidated balance sheet of Savola Group Company (the "Company") and its subsidiaries (collectively referred to as the "Group") as of December 31, 2013 and the interim consolidated income statement for the three-month period and year ended December 31, 2013, and the interim consolidated statement of cash flows for the year then ended and the related notes which form an integral part of these interim consolidated financial statements. These interim consolidated financial statements are the responsibility of the Group's management and have been prepared by them and submitted to us together with all the information and explanations which we required.

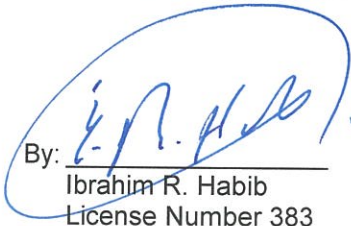

We conducted our limited review in accordance with the standard of Review of Interim Financial Reporting issued by the Saudi Organization for Certified Public Accountants. A limited review consists principally of applying analytical procedures to financial data and information and making inquiries of persons responsible for financial and accounting matters. The scope of such limited review is substantially less than an audit conducted in accordance with auditing standards generally accepted in Saudi Arabia, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

### Review conclusion

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying interim consolidated financial statements for them to be in conformity with accounting principles generally accepted in Saudi Arabia.

Effective September 16, 2009, the Group's subsidiary, APU acquired the operations of Saudi Geant Company Limited ("Geant") for a total consideration of Saudi Riyals 469.3 million, including cash consideration of Saudi Riyals 232 million and a deferred equity consideration of Saudi Riyals 237.3 million. The Company had paid the cash consideration on October 12, 2009 whereas the deferred equity component was settled during 2010, through issuance of 45.7 million new shares of APU at a price of Saudi Riyals 51.92 per share. Also as per the agreement, Geant is entitled to acquire 1% share of APU each year at an option value approximate to its fair value for a period of up to 3 years. During 2013, Geant has exercised its right of acquiring 1% ownership interest in APU. Accordingly, as of December 31, 2013, the ownership interest of the Group in APU has reduced from 74.4% to 73.4% and the Group realized a capital gain of Saudi Riyals 25.87 million, which is recorded in the

(All amounts in Saudi Riyals thousands unless otherwise stated)

balance sheet within 'Effect of acquisition transaction with non-controlling interest without change in control'. Geant is entitled to acquire additional 2% ownership interest in APU.

During second quarter of 2013, the Board of Directors of the Company has approved to acquire the non-controlling interest ownership equity of 18.6% in APU and 10% in SFC from Al Muhaidib Holding Company in exchange for the issue of 33.9 million new shares of the Company. The transaction was completed upon shareholders' approval in an Extra Ordinary General Meeting in November 2013 and certain other legal formalities. As a result, as at December 31, 2013, the Company's share capital increased by Saudi Riyals 339.8 million and share premium increased by Saudi Riyals 342.9 million, upon issuance of new shares.

During June 2013, there was a fire incident in the Jeddah raw sugar warehouse of USC. During the year, the loss adjuster, appointed by the insurance company of USC, has completed its initial assessment of the losses incurred and submitted its report to the insurance company. Management believes that no significant loss will arise as a result of this assessment.

These interim consolidated financial statements were authorized for issue by the Company's Board of Directors on January 19, 2014.

## **2 Summary of significant accounting policies**

The principal accounting policies applied in the preparation of these interim consolidated financial statements are set out below. These policies have been consistently applied to all periods presented, unless otherwise stated.

### **2.1 Basis of preparation**

The accompanying interim consolidated financial statements have been prepared under the historical cost convention on the accrual basis of accounting, as modified by revaluation of available-for-sale investments and in compliance with accounting standards promulgated by Saudi Organization for Certified Public Accountants.

The interim consolidated financial statements for the three-month period and year ended December 31, 2013, have been prepared in accordance with SOCPA's Standard of Review of Interim Financial Reporting, on the basis of integrated periods, which views each interim period as an integral part of the financial year. Accordingly, revenues, gains, expenses and losses of the period are recognized during the period. The accompanying interim consolidated financial statements include all adjustments, comprising mainly of normal recurring accruals, considered necessary by the management to present fair statements of financial position, results of operations and cash flows. The interim consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Group's audited consolidated financial statements for the year ended December 31, 2012.

### **2.2 Critical accounting estimates and judgments**

The preparation of financial statements in conformity with generally accepted accounting principles requires the use of certain critical estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the reporting date and the reported amounts of revenues and expenses during the reporting period. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

(a) Estimated impairment of goodwill

The Group annually tests whether goodwill has suffered any impairment, as per policy stated in Note 2.3. The recoverable amounts of cash generating units have been determined based on value-in-use calculations. These calculations require the use of estimates.

**SAVOLA GROUP COMPANY**  
**(A Saudi Joint Stock Company)**  
**Notes to the interim consolidated financial statements**  
**For the three-month period and year ended December 31, 2013 (Unaudited)**  
(All amounts in Saudi Riyals thousands unless otherwise stated)

(b) Impairment of available for sale investments

The Group exercises judgment to calculate the impairment loss of available for sale investments as well as their underlying assets. This includes the assessment of objective evidence which causes an other than temporary decline in the value of investments. Any significant and prolonged decline in the fair value of equity investment below its cost is considered as objective evidence for the impairment. The determination of what is 'significant' and 'prolonged' requires judgment. The Group also considers impairment to be appropriate when there is evidence of deterioration in the financial health of the investee, industry and sector performance, changes in technology, and operational and financing cash flows.

(c) Provision for doubtful debts

A provision for impairment of trade receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganization, and default or delinquency in payments are considered indicators that the trade receivable is impaired. For significant individual amounts, assessment is made at individual basis. Amounts which are not individually significant, but are overdue, are assessed collectively and a provision is recognized considering the length of time considering the past recovery rates.

(d) Provision for inventory obsolescence

The Group determines its provision for inventory obsolescence based upon historical experience, expected inventory turnover, inventory aging and current condition, and current and future expectations with respect to sales. Assumptions underlying the provision for inventory obsolescence include future sales trends, and the expected inventory requirements and inventory composition necessary to support these future sales and offerings. The estimate of the Group's provision for inventory obsolescence could materially change from period to period due to changes in product offerings of those products.

## **2.3 Investment in subsidiaries**

(a) Subsidiaries

Subsidiaries are entities over which the Group has the power to govern the financial and operating policies to obtain economic benefit generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

The purchase method of accounting is used to account for the acquisition of subsidiaries. The cost of an acquisition is measured as the fair value of the assets given or liabilities incurred or assumed at the date of acquisition, plus costs directly attributable to the acquisition. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. Goodwill arising from acquisition of subsidiaries is reported under "intangible assets" in the accompanying balance sheet. Goodwill is tested annually for impairment and carried at cost, net of any accumulated amortization and impairment losses, if any. The subsidiaries over which the Group control is temporary are not consolidated and are accounted for as associates.

Inter-company transactions, balances and unrealized gains and losses on transactions between Group companies are eliminated. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Changes in a group's ownership interest in a subsidiary after acquiring control, is accounted as equity transactions and the carrying amounts of the non-controlling interests is adjusted against the fair value of the consideration paid and any difference is recognized directly in equity under "Effect of acquisition transactions with non-controlling interest without change in control".

**SAVOLA GROUP COMPANY**  
**(A Saudi Joint Stock Company)**  
**Notes to the interim consolidated financial statements**  
**For the three-month period and year ended December 31, 2013 (Unaudited)**  
(All amounts in Saudi Riyals thousands unless otherwise stated)

(b) Associates

Associates are entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting and are initially recognized at cost. The Group's investment in associates includes goodwill identified on acquisition, net of any accumulated amortization and impairment losses, if any.

The Group's share of its associates' post-acquisition income or losses is recognized in the income statement, and its share of post-acquisition movements in reserves is recognized in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in associate companies equals or exceeds its interest in the associate and jointly-controlled company, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the associate.

Dilution gains and losses arising in investments in associates are recognized in the income statement.

(c) Investment in available-for sale investments

Available-for-sale investments principally consist of less than 20% equity investments in certain quoted/unquoted investments. These investments are included in non-current assets unless management intends to sell such investments within twelve months from the balance sheet date. These investments are initially recognized at cost and are subsequently re-measured at fair value at each reporting date as follows:

- (i) Fair values of quoted securities are based on available market prices at the reporting date adjusted for any restriction on the transfer or sale of such investments; and
- (ii) Fair values of unquoted securities are based on a reasonable estimate determined by reference to the current market value of other similar quoted investment securities or are based on the expected discounted cash flows.

Cumulative adjustments arising from revaluation of these investments are reported as a separate component of equity, as fair value reserve until the investment is disposed.

## **2.4 Segment reporting**

(a) Business segment

A business segment is group of assets and operations:

- (i) engaged in revenue producing activities;
- (ii) results of its operations are continuously analyzed by management in order to make decisions related to resource allocation and performance assessment; and
- (iii) financial information is separately available.

(b) Geographical segment

A geographical segment is group of assets and operations engaged in revenue producing activities within a particular economic environment that are subject to risks and returns different from those operating in other economic environments.

## **2.5 Foreign currency translations**

(a) Reporting currency

The interim consolidated financial statements of the Group are presented in Saudi Riyals which is the reporting currency of the Group.

(b) Transactions and balances

Foreign currency transactions are translated into Saudi Riyals using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the period-end exchange rates of monetary assets and liabilities denominated in foreign currencies, for the years ended December 31, 2013 and 2012, are recognized in the interim consolidated income statement.

**SAVOLA GROUP COMPANY**  
**(A Saudi Joint Stock Company)**  
**Notes to the interim consolidated financial statements**  
**For the three-month period and year ended December 31, 2013 (Unaudited)**  
(All amounts in Saudi Riyals thousands unless otherwise stated)

(c) Group companies

The results and financial position of foreign subsidiaries and associates having reporting currencies other than Saudi Riyals are translated into Saudi Riyals as follows:

- (i) assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
- (ii) income and expenses for each income statement are translated at average exchange rates; and
- (iii) components of the equity accounts are translated at the exchange rates in effect at the dates that the related items originated.

Cumulative adjustments resulting from the translations of the financial statements of foreign subsidiaries and associates into Saudi Riyals are reported as a separate component of equity.

Any goodwill arising on acquisition of foreign subsidiaries and any subsequent fair value adjustments to the carrying values of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign subsidiaries and translated at the closing rate and recognized in the equity.

Dividends received from associates are translated at the exchange rate in effect at the transaction date and related currency translation differences are realized in the income statement.

When investments in foreign subsidiaries and associates are partially disposed off or sold, currency translation differences that were recorded in equity are recognized in income as part of gain or loss on disposal or sale.

(d) Hyperinflationary economies

The Group has operations in Iran and Sudan through its subsidiaries namely SBeC and Savola Sudan (the entities). As per the information provided by International Monetary Fund (IMF), the cumulative three year inflation rate for Iran and Sudan exceeded 100 percent as of December 31, 2013, this, combined with other indicators, resulted Iran and Sudan being declared as hyperinflationary economies during December 2013.

As a result, in accordance with the accounting standards and guidance promulgated by SOCPA, Iran and Sudan are considered as hyperinflationary economies in 2013. The main implications are as follows:

- Adjustment of the historical cost of non-monetary assets and liabilities and the various items of equity of the entities from their date of acquisition or inclusion in the Group consolidated balance sheet to the end of year ended December 31, 2013 to reflect the changes in purchasing power of the currency caused by inflation.
- The cumulative impact of the accounting restatement to adjust for the effects of hyperinflation for the entities for years prior to 2013 are reflected in the translation differences at the beginning of the 2013 financial year.
- Adjustment of the income statement of the entities to reflect the financial gain/loss caused by the impact of inflation in the year on net monetary liabilities/assets (loss/gain of purchasing power).
- The various components of the financial statements of these entities have been adjusted for the inflation index since their generation.
- The 2012 comparative amounts of the Group consolidated financial statements for the entities were not restated, as not required under the applicable accounting standard.
- The results and financial position of the entities are translated into Saudi Riyals as per the requirements of applicable accounting standard:
  - (i) assets and liabilities for each balance sheet item presented are translated at the closing exchange rate at the date of that balance sheet; and
  - (ii) income and expenses for each income statement are translated at closing exchange rate.

## **2.6 Cash and cash equivalents**

Cash and cash equivalents include cash in hand and with banks and other short-term highly liquid investments with maturities of three months or less from the purchase date, if any.

**SAVOLA GROUP COMPANY**  
**(A Saudi Joint Stock Company)**  
**Notes to the interim consolidated financial statements**  
**For the three-month period and year ended December 31, 2013 (Unaudited)**  
(All amounts in Saudi Riyals thousands unless otherwise stated)

**2.7 Accounts receivable**

Accounts receivable are carried at original invoice amount less provision for doubtful debts. A provision for doubtful debts is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Such provisions are charged to the income statement and reported under "selling and marketing expenses". When an account receivable is uncollectible, it is written-off against the provision for doubtful debts. Any subsequent recoveries of amounts previously written-off are credited against "selling and marketing expenses" in the income statement.

**2.8 Inventories**

Inventories are carried at the lower of cost or net realizable value. Cost is determined using the weighted average method. The cost of finished products includes the cost of raw materials, labor and production overheads. Stores and spares are valued at cost, less any provision for slow moving items.

Net realizable value is the estimated selling price in the ordinary course of business, less the costs of completion and selling expenses.

**2.9 Property, plant and equipment**

Property, plant and equipment are carried at cost less accumulated depreciation, except construction in progress which is carried at cost. Land is not depreciated. Depreciation is charged to the interim consolidated income statement, using the straight-line method to allocate the costs of the related assets to their residual values over the following estimated useful lives:

	<b>Years</b>
Buildings	12.5 - 33
Leasehold improvements	3 - 33
Plant and equipment	3 - 30
Furniture and office equipment	3 - 16
Motor vehicles	4 - 10

Gains and losses on disposals are determined by comparing proceeds with carrying amounts and are included in the interim consolidated income statement.

Maintenance and normal repairs which do not materially extend the estimated useful life of an asset are charged to the interim consolidated income statement as and when incurred. Major renewals and improvements, if any, are capitalized and the assets so replaced are retired.

**2.10 Assets and liabilities classified as held for sale**

Assets held for sale, comprises of assets and liabilities or a disposal group that is expected to be recovered primarily through sale rather than through continuing use. Immediately before classification as held for sale, all assets in a disposal group are measured at the lower of their carrying amount and fair value, less cost to sell. Subsequent to initial recognition, any impairment loss on a disposal group is first allocated to goodwill, (if there is any) and then to the remaining assets and liabilities on pro rata basis. However, no loss is allocated to financial assets, which continue to be measured in accordance with their initial accounting policies. Gains or losses on disposal of such assets or disposal groups are currently recognized in the interim consolidated income statement.

**2.11 Deferred charges**

Costs that are not of benefit beyond the current period are charged to the interim consolidated income statement, while costs that will benefit future periods are capitalized. Deferred charges, reported under "Intangible assets" in the accompanying balance sheet, include certain indirect construction costs incurred by the Group in relation to setting up its retail outlets. Such costs are amortized over periods which do not exceed five years.

**2.12 Impairment of non-current assets**

Non-current assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the carrying amount of the asset exceeds its recoverable amount which is the higher of an asset's fair value less cost to sell and value in use. For the purpose of assessing impairment, assets are grouped at lowest levels for which there

**SAVOLA GROUP COMPANY**  
**(A Saudi Joint Stock Company)**  
**Notes to the interim consolidated financial statements**  
**For the three-month period and year ended December 31, 2013 (Unaudited)**  
(All amounts in Saudi Riyals thousands unless otherwise stated)

are separately identifiable cash flows (cash-generating units). Non-current assets other than intangible assets that suffered impairment are reviewed for possible reversal of impairment at each reporting date. Where an impairment loss subsequently reverses, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but the increased carrying amount should not exceed the carrying amount that would have been determined, had no impairment loss been recognized for the assets or cash-generating unit in prior years. A reversal of an impairment loss is recognized as income immediately in the income statement. Impairment losses recognized on intangible assets are not reversible.

**2.13 Borrowings**

Borrowings are recognized as equivalent to the proceeds received, net of transaction costs incurred. Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalized as part of those assets. Other borrowing costs are charged to the interim consolidated income statement.

**2.14 Accounts payable and accruals**

Liabilities are recognized for amounts to be paid for goods and services received, whether or not billed to the Group.

**2.15 Provisions**

Provisions are recognized, when the Group has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources will be required to settle the obligation, and the amount can be reliably estimated.

**2.16 Zakat and taxes**

The Company is subject to zakat in accordance with the regulations of the Department of Zakat and Income Tax ("DZIT"). Foreign shareholders in consolidated Saudi Arabian subsidiaries are subject to income taxes. Income tax provisions related to foreign shareholders in such subsidiaries are charged to the non-controlling interest in the accompanying interim consolidated financial statements. Provision for zakat for the Company and zakat related to the Company's ownership in the Saudi Arabian subsidiaries is charged to the income statement. Additional amounts payable, if any, at the finalization of final assessments are accounted for when such amounts are determined.

The Company and its Saudi Arabian subsidiaries withhold taxes on certain transactions with non-resident parties in the Kingdom of Saudi Arabia as required under Saudi Arabian Income Tax Law.

Foreign subsidiaries are subject to income taxes in their respective countries of domicile. Such income taxes are charged to interim consolidated income statement.

Deferred income tax assets are recognized on carry-forward tax losses and on all major temporary differences between financial income and taxable income to the extent that it is probable that future taxable profit will be available against which such carry-forward tax losses and the temporary differences can be utilized. Deferred income tax liabilities are recognized on significant temporary differences expected to result in an income tax liability in future periods. Deferred income taxes are determined using tax rates which have been enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

**2.17 Employee termination benefits**

Employee termination benefits required by Saudi Labor and Workman Law are accrued by the Company and its Saudi Arabian subsidiaries and charged to the income statement. The liability is calculated; as the current value of the vested benefits to which the employee is entitled, should the employee leave at the balance sheet date. Termination payments are based on employees' final salaries and allowances and their cumulative years of service, as stated in the laws of Saudi Arabia.

Foreign subsidiaries currently provide for employee termination and other benefits as required under the laws of their respective countries of domicile. There are no funded or unfunded benefit plans established by foreign subsidiaries.

**SAVOLA GROUP COMPANY**  
**(A Saudi Joint Stock Company)**  
**Notes to the interim consolidated financial statements**  
**For the three-month period and year ended December 31, 2013 (Unaudited)**  
(All amounts in Saudi Riyals thousands unless otherwise stated)

**2.18 Revenues**

Revenues are recognized upon delivery of products and customer acceptance, if any, or on the performance of services. Revenues are shown net of discounts and transportation expenses, and after eliminating sales within the Group.

Rental income from operating leases is recognized in the income statement over the lease term. Promotional and display income is comprised of income earned from promotion and display of various products by vendors within the Group's retail stores, and is recognized in the period in which the product is listed.

Dividend income is recognized when the right to receive payment is established.

**2.19 Selling, marketing and general and administrative expenses**

Selling, marketing and general and administrative expenses include direct and indirect costs not specifically part of costs of sales as required under generally accepted accounting principles. Allocations between selling, marketing and general and administrative expenses and cost of sales, when required, are made on a consistent basis.

**2.20 Dividends**

Dividends are recorded in the interim consolidated financial statements in the period in which they are approved by the shareholders of the Company.

**2.21 Operating leases**

Rental expenses under operating leases are charged to the interim consolidated income statement over the period of the respective lease.

**2.22 Reclassification**

For better presentation, certain amounts relating to 2012 comparative interim consolidated financial statements have been reclassified to conform to the 2013 presentation.

**3 Assets and liabilities classified as held for sale**

During the fourth quarter of 2010, as an outcome of review of its foods business pruning strategy, the Group has decided to entrench its position in core markets and assess exiting from certain overseas operations. Accordingly, parts of manufacturing facilities within the edible oil segment of the Group are presented as 'held for sale'. Efforts to sell these assets which are held for sale have commenced. During the current period, Group management has entered into agreement with a third party to sell one part of such business. The net loss relating to these business disposal groups amounted to Saudi Riyals 2.9 million during 2013 (2012: net loss of Saudi Riyals 2.1 million). At December 31, 2013, the 'held for sale' business comprised assets of Saudi Riyals 104 million (2012: Saudi Riyals 186.3 million) after recognition of an impairment loss of Saudi Riyals 115 million during fourth quarter of 2010 and liabilities of Saudi Riyals 92.7 million (2012: Saudi Riyals 159.2 million).

Others	<b>Various</b>	Various	<b>2,000</b>	2,000
			<b>7,122,526</b>	6,806,659

a) During 2011, the Company entered into an agreement to sell certain land parcels for an amount of Saudi Riyals 467 million to Knowledge Economic City ("KEC"). Under the agreement, the Company transferred its ownership in two land parcels located in Al Madinah Al Munawarah to one of its subsidiary and subsequently sold its 80% equity ownership in the subsidiary to KEC at a sale value of Saudi Riyal 631.3 million. The legal formalities of the transaction were completed during November 2013. Accordingly, the Company recorded a capital gain of Saudi Riyals 231.4 million in the accompanying interim consolidated financial statements.

b) During 2011, the Company's land parcels located in Riyadh having carrying value of Saudi Riyals 340 million were sold to Kinan International (an associate company) at a total price of Saudi Riyals 608 million. The Company made a gain of Saudi Riyals 152.8 million on these sales. As per the terms of the agreement, Kinan International will pay the price in installments ranging up to the year 2014. The total payments of Saudi Riyals 425.6 million (2012: Saudi Riyals 261.9 million) have been received by the Company as of December 31, 2013.

As of December 31, 2013, the installments due in 2014 amounting to Saudi Riyals 167.9 million are classified as current receivables under prepayments and other receivables in the accompanying interim consolidated financial statements.

c) During December 2013, the Company recognized an impairment provision amounting to Saudi Riyals 100 million on its investment in Intaj, based on the impairment exercise performed by the management on the fair value of the investee company.

**4.2 Available for sale (AFS) investments**

AFS investments at December 31 principally comprise the following:

	Effective ownership interest (%)		2013	2012
	2013	2012	(Unaudited)	(Audited)
<u>Quoted investments</u>				
Emaar the Economic City ("Emaar")	<b>0.9</b>	0.9	<b>98,998</b>	61,782
Knowledge Economic City	<b>6.4</b>	6.4	<b>384,417</b>	273,672
Taameer Jordan Holding Company	<b>5</b>	5	-	9,534
<u>Unquoted investments</u>

Swicorp, Saudi Arabia	<b>15</b>	15	<b>115,674</b>	115,674
Others	<b>Various</b>	Various	<b>24,753</b>	24,753
			<b>810,140</b>	694,234

During 2012, the Company partially disposed its investment in Emaar at a capital gain of Saudi Riyals 46.7 million.

**SAVOLA GROUP COMPANY**  
**(A Saudi Joint Stock Company)**  
**Notes to the interim consolidated financial statements**  
**For the three-month period and year ended December 31, 2013 (Unaudited)**  
(All amounts in Saudi Riyals thousands unless otherwise stated)

**5 Short-term borrowings**

Short-term borrowings consist of bank overdrafts, short-term loans and Murabaha financing arrangements from various commercial banks and financial institutions. Such debts bear financing charges at the prevailing market rates. Certain short-term borrowings of subsidiaries are secured by corporate guarantees of the Company.

**6 Long-term borrowings**

	<b>Note</b>	<b>2013 (Unaudited)</b>	2012 (Audited)
Saudi Industrial Development Fund (SIDF)	(a)	<b>14,629</b>	19,689
Commercial banks	(a)	<b>3,364,401</b>	4,503,509
		<b>3,379,030</b>	4,523,198
Sukuk	(b)	<b>1,500,000</b>	-
		<b>4,879,030</b>	4,523,198
Current maturity shown under liabilities		<b>(711,217)</b>	(910,952)
		<b>4,167,813</b>	3,612,246

(a) Borrowings from SIDF, commercial banks and other financial institutions represent financing for the Company and its consolidated subsidiaries. Certain of these borrowings are secured by a charge on the property, plant and equipment of certain subsidiaries. The loan agreements include covenants which, amongst other things, require certain financial ratios to be maintained. Some of the long-term borrowings of subsidiaries are secured by corporate guarantees of the Company.

(b) In an extraordinary general meeting held on December 15, 2012, the Company's shareholders approved the establishment of a Sukuk program pursuant to which the Company can issue Sukuk through one or more tranches for an amount that will not exceed the Company's paid-up capital.

As of January 22, 2013, the Group completed its initial offering under this program by issuing Sukuk with a total value of Saudi Riyals 1.5 billion. The Sukuk issued have a tenor of 7 years, and have been offered at nominal value with an expected variable return to the Sukuk-holders of 6 months SIBOR plus 1.10%.

The covenants of the Sukuk require the Group to maintain certain financial and other conditions.

**7 Share capital and dividends declaration**

At December 31, 2013, the Company's share capital of Saudi Riyals 5.3 billion consists of 533.9 million fully paid shares of Saudi Riyals 10 each (December 31, 2012: Saudi Riyals 5 billion consisting of 500 million fully paid shares of Saudi Riyals 10 each). Please also refer to Note 1.

The details of interim dividends approved and final dividend proposed by the Board of Directors are as follows:

<u>Date</u>	<u>Dividend rate</u>	<u>Interim / final</u>	<u>Amount Saudi Riyals in million</u>
April 11, 2013	SR 0.50 per share	Interim	250
July 16, 2013	SR 0.50 per share	Interim	250
October 23, 2013	SR 0.50 per share	Interim	250
January 19, 2014	SR 0.50 per share	Final 2013	266.99

**8 Seasonal changes**

Some of the Group's activities are affected by seasonal movements related to the holy months of Ramadan, Shawwal and Hajj season, which cause revenue to increase significantly during those periods. The effect of such period for 2013 and 2012 principally fall in second and third quarters of the financial year.

**10 Earnings per share**

Earnings per share for the three-month periods and years ended December 31, 2013 and 2012, have been computed by dividing the operating income and net income attributable to shareholders of the Company for such periods / years by the weighted average number of shares outstanding during such periods / years. The weighted average number of shares for the three-month period and year ended December 31, 2013, were computed based on the number of original shares issued at the beginning of the period / year and the new shares issued to Al Muhaidib in November 2013. Also, see note 1 and 7.

**SAVOLA GROUP COMPANY**  
**(A Saudi Joint Stock Company)**  
**Notes to the interim consolidated financial statements**  
**For the three-month period and year ended December 31, 2013 (Unaudited)**  
(All amounts in Saudi Riyals thousands unless otherwise stated)

**11 Contingencies and commitments**

- (i) At December 31, 2013, the Group had outstanding commitments of Saudi Riyals 111 million (2012: Saudi Riyals 138 million) for investments.
- (ii) At December 31, 2013, the Department of Zakat and Income Tax (DZIT) has assessed an additional Zakat liability of Saudi Riyals 43.7 million (2012: Saudi Riyals 30.6 million) relating to prior periods against the Company and certain of its consolidated subsidiaries. Management has appealed such assessments and believes that the DZIT will eventually reverse the assessments. Accordingly, no provision for such amount has been made in the accompanying interim consolidated financial statements.
